

The Office Challenge

Imagine...if we could raise just **\$300.00**
Look how many people we could help globally!

\$3 - \$1
Match!

1. In **Burundi** we could buy a family a real live cow! **\$125.00**
It would normally cost \$500 for a cow, but for this project, for every \$1 raised, the Canadian Government will match with \$3! WOW!

2. Plus, we could help 10 children in **Haiti** have a **\$63.00**
meal for two whole weeks! This would help them to receive an education instead of working on the streets or as a slave in someone's home.

3. Plus, 10 children in **North Korea** can have a daily cup **\$64.00**
of Soymilk for an entire year!! This is their daily source of protein and a very important way to keep the orphans and kindergarten kids from being malnourished!

\$4 - \$1
Match!

4. Plus 30 girls in **Sudan** would get a meal for 16 days at **\$48.00**
school - helping to ensure an education for them!
At 50 cents a meal, feeding 30 girls for 16 days should really cost \$240.00, but because the Canadian Government is matching every \$1 with \$4, that means 5 children can receive a meal for 50 cents each! WOWEE!

Act
Locally

And we each can bring a bag of rice for the local food bank!

\$300.00

Total

100% of all designated donations go to the project! If you wish to support the work of Hunger Response Int. we thank you. Please indicate so separately.
